

GEO Community Energy Coordinator Training
Friday, July 16, 9:00 AM – 3:00 PM
Governor's Energy Office Main conference room
1580 Logan Street #100 Denver, CO 80203

Call-in Option: 1-866-427-0083 room number *7329022*

AGENDA

- 9:00 Welcome and introductions – Mona Newton, GEO Central Regional Representative
- 9:15 Thad Kurowski, Residential Program Manager
- New homes, existing homes, all homes should be energy efficient. Thad will review the most cost-effect measures a homeowner can undertake. Learn about GEO programs for energy efficiency, the Home Star federal legislation, and how you as a community energy coordinator can have an impact in your area. GEO received the ENERGY STAR Partner of the Year award in 2009 and 2010 for the state's work in the new home market. We'll discuss how that program was structured for success. CECs – be prepared to provide Thad with you suggestions for moving energy efficiency rebates in your community, and identify any lack of contractors or contractor training.
- 10:45 Break
- 11:00 Community Energy Coordinator brainstorming. We are about six months into the CEC contracts. We'll take some time to share our experiences to date.
- 12:00 Lunch
- 12:45 Sean Mandel, New Business Development Manager, GEO Weatherization Program
- We'll review the low-income weatherization program – how it works, who receives services, how county allotments are determined, and hear about some of the innovative training and service delivery models in place in Colorado. The GEO Weatherization Program is widely regarded as one of the nation's premier programs. Sean will share with us what makes Colorado unique.
- 2:15 4CORE – sowing the seeds of success – case study for getting started
- 3:00 Adjourn
