

Notes for October 8, 2010 CEC training session

Announcements:

New Regional Rep assignments – explain East / West structure, talk about Bob’s role in the next three months.

October 21 next CEC phone call – agenda is wide open – send topics

November 4 – Alliance for Sustainable Colorado and CORE co-hosting statewide roundtable at University of Denver. \$50 registration fee. **Objectives**

Work toward making statewide sustainability sustainable. Walk away with a seed (of a tangible idea) to plant.

- Professional development – Learn new information and resources
- Inspiration – Pick up ideas & support to get communities involved and desirous of making a more sustainable future
- Networking – Meet peers across sectors
- Looking forward – Provide input on how to make sustainability sustainable and how to move sustainability forward
- Information gathering – participate in documentation of needs/ best practices/ priorities to advance sustainability

New items on Focal Point: rebates reserved, rebates paid by city and by county, rebate referral sources

Main Street prescriptive closes next Friday, October 15.

Report out on EECBG spending and announce one last “big” grant – RE on public buildings. Also alert CECs that funding for events is open and they should apply by November 1 for events happening in 1st quarter 2011. Requests in the \$500 - \$2,500 range are preferred. We have about \$9,000 to spend and need events that reach both businesses and the general public.

Utility data – success stories. Abbie received data from Source Gas - how can we get statewide data?
